

Lisburn Pickleball Club - Code of Conduct

- Club sessions are for the enjoyment of all.
- Morning Recreational / General play - play commences on a 'first come, first play' basis. If all available courts are full, players should deposit their paddle in the Loser section of the paddlebox. On completion of each game, each player should deposit their paddle in the Winner / Loser section of the paddlebox, as appropriate. (The ball should be left on court). To ensure correct sequencing of players, paddles should be inserted commencing from the centre of the paddlebox outwards on each side. The section with a minimum of 4 paddles in it will be the next 'on court'.
- Paddles must not be moved from their respective place in the paddlebox unless with the consent of the owner.
- The server should call the score clearly before serving
- Out calls - Calls should be made quickly and clearly with the default of the ball being in, unless clearly seen to be out.
- Non Volley Zone / Kitchen - players should call their or other players out if they volley when inside the NVZ / kitchen.
